In
Collaboration with Danish Consortium

Presents
International Faculty
Development Programme

"Innovation in a Classroom"

24th-28th June, 2019

Organized by
M.M. College of Pharmacy

ABOUT MM COLLEGE OF PHARMACY

M.M. College of Pharmacy (MMCP) is a pioneer renowned Institution in the field of Pharmaceutical education in India with 41 NIRF (National Institutional Ranking Framework) ranking. Presently our college is offering high profile professional courses like Bachelor of pharmacy, Master of Pharmacy with three specializations (Pharmaceutics, Pharmacology and Quality Assurance), Doctor of Philosophy programme in Pharmaceutical Sciences with the approval of respective regulating council's such as AICTE, New Delhi and Pharmacy Council of India (PCI), New Delhi. The college is recognized by Department of Scientific and Industrial Research (DSIR), Govt. of India as SIRO (Scientific and Industrial Research Organization). Recently, MMCP also accredited by National Board of Accreditation (NBA), New Delhi.

MMCP has started forefront of educating pharmacy's future practitioners with its six-year Pharm.D program and Pharm D (PB) with an intake of 30 students and 10 students, respectively from India and abroad to enhance and upgrade the standard and status of pharmacists with a notion to enable them to render community services.

DANISH CONSORTIUM FOR ACADEMIC CRAFTSMANSHIP

The Danish Consortium is accredited by the Danish Ministry of Education. It consists of four publicly recognized and state financed vocational colleges and higher education, offering vocational upper secondary and higher education and training programmes accredited by the state. Vocational Education Centre South (EUC Syd), Technical Education Copenhagen (TEC), International Business College (IBC) and Zealand Business College (ZBC) With an aim to develop tailor-made educational programmes in collaboration with international businesses and organizations based on professional competences, pedagogy and the Danish VET-model. The Consortium provides educational programmes that prepare students for employability and help them develop and utilize their potential.

SCOPE OF FDP

The objective of the FDP is to bring together leading scientists, researchers, scholars and practitioners from academia and industry to present their combined craftsmanship, innovation, skills and green thinking for the students knowledge to enhance their competences to change and develop the sector in which they work and to become part of the workforce of tomorrow. It will also provide a forum for in-depth assessment of the

challenges involved in the Innovation in a classroom. This is an incredible opportunity to showcase your basic ideas, experiences and reviews.

Objective of FDP

- To familiarize the participants with the basics of Innovation in a Classroom teaching methodology.
- To enable the participants to understand applicability of different techniques in different situations
- To provide them with an opportunity to present and discuss their views, experiences and ideas related with the innovation in classroom.
